2016 Python Boot Camp

Goddard Python User's Group

pythonbootcamp@bigbang.gsfc.nasa.gov

Goddard Space Flight Center

June 13, 2016

Who Are We?

1. All volunteers
2. Scientists, Engineers, IT Professionals from Goddard
3. Post-Docs
4. University Professors

To contact us, please send an email to:

pythonbootcamp@bigbang.gsfc.nasa.gov

Boot Camp Objectives

We want to:

1. Introduce the basic concepts of Python programming
2. Create functions and modules
3. Manipulate Python objects (list, tuple, arrays, etc.)
4. Handle files
5. Do plotting
6. Do OOP with Python
7. Create and share a Python package

What we will Cover

1. Core principles of Python: Day 1 and Day 2 (morning)
2. Object Oriented Programming with Python: Day 2 (afternoon)
3. Create your own Python package: Day 2 (afternoon)
4. Advanced topics: Day 3 (morning)
5. Real life applications using Python: Day 3 (afternoon)

Target Audience

Python User	Day 1	Day 2	Day 3
Beginner	X	X	X
Intermediate		X	X
Advanced			X

Obtaining the Material

To have the necessary information on this Boot Camp, please check the link:

http://asd.gsfc.nasa.gov/conferences/pythonbootcamp/2016/

All the presentations are available from:

http://asd.gsfc.nasa.gov/conferences/pythonbootcamp/2016/Agenda

What We Expect from You

- Pay the $3 registration fee (to cover the refreshment)
- Have your own laptop.
- Install on your system a Python distrubution (such as Conda) that should at least have iPython, Numpy, Matplotlib.
- Install the package Git (by Day 2)
- Be able to create/edit files on your platform
- Do the examples yourself as we move along
- Ask questions

Useful Pointers I

- Python Programming - Introduction
  http://www.youtube.com/watch?v=72RKMMyLxS8
- A Hands-On Introduction to Python for Beginning Programmers
  https://www.youtube.com/watch?v=rkx5_MRAV3A
- A Beginner's Python Tutorial
  http://www.sthurlow.com/python/
- Invent with Python
